Formal living and entertaining in your private living room (some with an optional place) and separate dining room is easily accomplished. More casual day-to-day living will probably occur around the family room where the fireplace offers both winter-time comfort and year-round activeness. The country kitchen and breakfast room also see plenty of activity. Fast meals or snacks are easily served around the island cooktop/counter, while a relaxing breakfast or brunch can be enjoyed in the elegant bay shaped breakfast room with its beautiful open view of your yard. Quiet evenings can be enjoyed in the library or you can convert the library to a study through the addition of an attractive bay window.

Upstairs, practically one-half of this level is devoted to the sumptuous master bedroom/ bath suite. This majestic area of the Bedford features its own sitting room, huge master bath and large walk-in closet. Three additional large upstairs bedrooms and a full second bath offer flexibility in accommodating family or guests. A large basement, powder room and main floor laundry with access both to the two car garage and to the outside, help make the Bedford a home to meet a family's every need.
