# Fairchild (2750 ft<sup>2</sup>)

The Fairchild offers a design that is perfect for a growing family. A skillful floorplan combines a large everyday casual living area with rooms that are ideal for more formal occasions. A large dramatic entry foyer leads one to the formal living room, separate formal dining or to the large family living area beyond. Virtually the whole back of the house is devoted to a 'great room' that uniquely combines a large airy U-shaped kitchen with a breakfast area and large family room. The friendly atmosphere of the family room with its fireplace, plus the openness of the kitchen, will make this area of the home a favorite. An island cooktop not only adds to cooking ease, but allows one to use the kitchen while still being part of activities in the family or breakfast rooms. The main floor of the well conceived Fairchild also contains an away-from-it-all library that invites quiet solitary moments.

Upstairs, the master bedroom/bath suite provides private luxury at its best. The large master bath with its raised ceramic platform and inset tub and the master bedroom's dramatic ceiling treatments is guaranteed to entice you into hours of luxurious relaxation. Three additional full bedrooms and a second full upstairs bath are perfect for family members or weekend guests. A two car garage, main floor laundry room, main floor bath with shower and a large basement complete a home designed to meet your every living requirement.
